EXPLANATORY NOTES.

An asterisk (*), as usual, indicates the decease of the person to whose name it is prefixed. Wherever ascertainable, full names are given; an initial not followed by a period denotes that there is nothing beyond the initial.

In the list of TRUSTEES biographical notes are appended solely to the names of those deceased who were members of the board by charter or election.

In the list of PROFESSORS, which includes Associate and Assistant professors, the professorships are arranged in general groups in the order of establishment. In each of these groups the order is strictly chronological, and the names of the professors of the general subject are followed by no qualifying word or clause, while subordinate rank is indicated by the words *Associate*, *Assistant*, etc. In this list also, biographical notes are given only in the case of those deceased.

The list of MATRICULATES includes both graduates and non-graduates, and is intended to give in all cases the record of study at the University, comprising the years and terms of attendance, the course pursued, or the degrees received, and the original residence of the matriculate. In the case of undergraduates in attendance in June, 1888, the years are enclosed within parentheses to indicate that the record is unfinished.

Besides the common abbreviations for degrees, the following are used to denote the various courses of study, etc.

A.—Arts.
Ag.—Agriculture.
Arch.—Architecture.
C.—Civil Engineering.
C. (following M. P., etc.)—Certificate.
Ch.—Chemistry.
Ch.-Phys.—Chemistry and Physics.
Dr.—Drawing or Draughting.
E.—Electrical Engineering.
Gr.—Graduate Student.
H.-P.S.—History and Political Science.
L.—Letters.
Lic.—Licentiate.
Lit.—Literature.
M.—Mechanical Engineering.
Math.—Mathematics.
Matr.—Matriculated.
M.P.—Medical Preparatory.
N.—Natural History.
O.—Optional.
Ph.—Philosophy.
Pharm.—Pharmacy.
S., Sc.—Science.
S.-L.—Science and Letters.
Sp.—Special student.
Sr.—Surveying.
V.S.—Veterinary Science.

In the list of MATRICULATES, the names of graduates are printed in **heavy face** type and are followed by a note containing such biographical information as has been obtained in response to the circulars sent to all graduates. Where no reply has been received from living graduates, information obtained at second hand has been given, but such information is printed in *italics*. The biographical note is intended to give (1) colleges previously attended (in parentheses); (2) colleges attended after graduation at Cornell; (3) present profession or occupation; (4) official positions; (5) publications; (6) the present address of the graduate. Where the publications were numerous, only a few of the more important have been named. It is intended, however, to prepare a full Bibliography of publications by Cornell alumni, covering the period from 1868 to 1893—twenty-five years—and the replies to the circulars for the Ten-Year Book have supplied much material for such a bibliography. In order that the record may be made complete, all alumni are earnestly requested to send to the Librarian of the University the exact titles and dates, and, if possible, a copy of any books or articles they may publish.

Corrections of biographical data, changes of residence, titles and dates of positions held, dates and places of decease, and all similar information concerning the alumni should also be sent to the LIBRARIAN OF CORNELL UNIVERSITY.
